WATER BATH

LWO SERIES

TYPE: PLASMA THAWING

DESCRIPTION

Digital water bath LWO is dedicated for conducting analytical-medical, microbiological, physical, chemical and other research requiring temperature regimes in the range from 10°C to 62°C.

These baths also meet all recommendations regarding plasma thawing conditions:

- the digital technology used allows maintaining high stability of the set temperature and programming the heating time
- each water bath has a thermostat with a stirrer, which guarantees even temperature distribution throughout the entire container
- containers are made of stainless steel with a seamless method, which eliminates the possibility of leaks
- container size: as per customer's expectation for 1,2,4,6 plasma bags
- the design of the baskets for placing the plasma bags ensures free flow of water around the material to be thawed

The work with device is facilitated by LCD display messages and automatically activated security devices.

SPECIFICATION

- temperature set in range from 10°C to 62° (res. 0,1°C)
- accuracy of temperature stabilization up to 0,2°.
- LCD display messages:
 - current temperature
 - set temperature
 - set heating time
 - water sensor damage (with heating block)
 - low water level (with heating block)
- acoustic signalization:
 - reaching the set temperature
 - end of programmed heating time (with heating block)
 - tempeature sensor damage (with heating block)
 - low water level (with heating block)
- signaling water heating (LED diode)
- power supply 230~240 VAC, 50/60 Hz
- power consumption: maximum 1000 W, average 100 W
- minimal water level is 65mm from container bottom (water level sensor is covered)
- storage temperature range from +5°C to +40°C
- working temperature range from +10°C to +40°C
- the minimum difference between the ambient temperature and the set temperature:
 - 0°C with external cooling
 - 5°C without external cooling

KINDS

(stainless steel container)

Water bath LWO 502/M – 1 – 200

- container capacity 7,5 l (dimensions 300 x 151 x 200mm)

Water bath LWO 502/M – 2 – 200

- container capacity 11,7 l (dimensions 240 x 300 x 200 mm)

Water bath LWO 502/M – 4 – 200

- container capacity 16,7 l (dimensions 329 x 300 x 200 mm)

Water bath LWO 502/M – 6 – 200

- container capacity 26,50 l (dimensions 505 x 300 x 200 mm)

ADDITIONAL EQUIPMENT

- wide range of plexiglass and staintelss steel tripods
